A highly motivated Industrial Engineer with hands on experience of production management, production scheduling and controlling, maintenance, now looking for another challenging opportunity to utilize my knowledge, skills & trainings while contributing to the success of the organization as well as my professional growth.

EXPERIENCE (6years+)

Deputy Manager – Production & Maintenance | Midas Safety

June 2024 – Present

Assistant Manager – Production Planning & Control | Midas Safety

2022 – June 2024

Senior Officer | Midas Safety

2020 – 2021

Shift Engineer | Midas Safety

2018 – 2019

Key Performance Indicators:

- Leading a team of 10 production In-charge with 150+ workforce of Composite yarn & Glove manufacturing and executed monthly production output of 8,000 kgs composite yarn & 180,000 DP (dozen pair) gloves
- Planning and executing Production within a standard time frame.
- In batch production, plan and prioritize operations to ensure maximum performance and minimum delays.
- Ensure that the machine is running as per QPP, and all operations are carried out as per SOP's.
- Ensure preventive maintenance of each machine as per schedule.
- Worker allocation planning and effective utilization according to approved strength on daily basis.
- Ensure availability of raw material before starting production.
- Ensure to achieve production targets, safety targets, Zero LTI, daily TBT, UA/UC reporting and closing, zero variance in monthly stock, execution of Preventive plans, Zero WIP.
- Ensure safety compliance before starting any work/operation in your area.
- Develop and maintain worker's skill matrix and derived TNA through it.
- Work on Lean Manufacturing to reduce wastes in production.
- Maintain 5S score greater than 4.
- Propose at least one High risk project in a year.
- Record and maintain data of solid disposal/wastages.
- Submit daily production report, down time report and defects report and recording in SAP.
- Coordinate with Technical Department team if any deviation observed during process.
- Ensure timely closure of MSA and QMS observations.
- Coordinating with R&D to validate new product.
- Develop alternate product with the help of R&D team to improve productivity and reduce cost.
- Coordinating with ERP & Master Data teams to ensure system accuracy and making updates when required.
- Preparing performance report.
- Creating BOM, Recipe etc. of new product.
- Delivering Improvement Projects with significant cost and quality impact.
- Developed training plans for junior resources focusing on their professional

Major Projects (5+)

- Worker utilization to 94% which saved 26% cost.
- Implemented the concept of Standardize changeover resulting in 10% reduction in changeover time.
- Reduction in cost of one of the top 20 selling products by more than 15% by conducting trials with less expensive materials.

- Improved layout of Packing Department.
- Increased Overlock productivity - 15%.
- Liner Counter - Automate the bundling activity / replace bundling worker.
- SLOB Material Reduction.
- Standardize all layout of factory in Visio.
- Implementation of Handling Unit Management (HUM) system in the department.
- Implementation of digital monitoring of OEE.
- Prepared Auto-Dashboard to monitor health of department.

Achievements (5+)

- Successfully passed EMS, 5S, MSM & other Audits of department.
- Worked as an Acting Lead for a month.
- Made and implemented SOP's.
- Working as a team member of the Internal Audit team.
- Achieved Zero LTI target.
- Conducted KAIZEN, Lean Methodology & 5S training.
- Proposed & Implemented Safety Kaizens in all production department.
- Developed successors on critical position.

EDUCATION (1+)

Master of engineering management – Supply Chain Management | NEDUET

CGPA: 3.45

2019 - 2022

Bachelor of Industrial & Manufacturing Engineering | NEDUET

CGPA: 3.62

2014 – 2017

CERTIFICATIONS (5+)

- Six Sigma Yellow Belt | NEDUET
 - Work Permit Skill | Midas Safety
 - Incident Investigation | Midas Safety
 - First Aid & CPR
 - Midas Safety Management | Midas Safety
-

COURSES | LINKEDIN LEARNING (5+)

- | | |
|--|-------------|
| • Efficient Email Management | (2 hours) |
| • SAP MM – Materials Management | (1.8 hours) |
| • Communication Foundations | (1.3 hours) |
| • AI Foundation – Machine learning | (1.8 hours) |
| • Excel Essential Training – MS 365 | (3 hours) |
| • Develop Critical Thinking, Decision-Making, and Problem-Solving Skills | (4.5 hours) |
| • AutoCAD 2021 Essential Training | (4 hours) |
| • Power BI Essential Training | (3.5 hours) |
| • Lean Six Sigma: Define and Measure Tools | (1.5 hours) |
| • Learning Python | (3 hours) |
| • Six Sigma: Green Belt | (2 hours) |
| • Efficient Time Management | (1.5 hour) |
-

SKILLS (5+)

- SAP S/4 HANA
 - Advanced MS Office
 - CATIA V5 – 3D Modeling
 - Layout Designing
 - Data Modeling & Analytics
 - Leadership
 - Decision Making
 - Problem Solving
 - Teamwork
 - Training
-
